

## Barrier Plank System

✓ A highly visible and versatile barrier system

### Cones & Adaptors

- 750mm high, with heavy non-slip rubber base for best stability
- Slots at the base of the cone accept the end of the barrier plank
- Three-way top adaptors, with hazard lamp attachment point, fit simply over the cone to allow various plank configurations to be quickly assembled

### Barrier Planks

- 150mm deep x 2m long in strong but lightweight extruded plastic, weight 2kg each
- Supplied in reflective finish to meet latest regulations
